It is so good to see you all in person
– after Covid

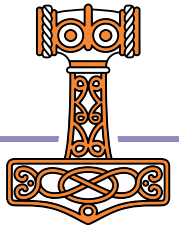

Covid

- Covid has been a real game changer:
- Virtual User Meetings – and much bigger
- Much more WFH (working from home)
- Seems to be an issue when recruiting
 - Two of our last four recruits are constantly WFH
- So our idea of maintaining the coherence of the core development team by means of a shared physical venue probably needs a revision...

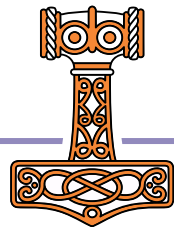

Covid

- But we are still committed to participating in local APL User Meetings when we are invited
- To meet with you
- To form the networks that makes digital communication so much easier

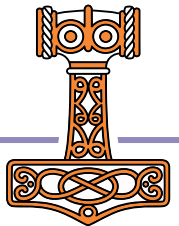

Website

- New website is in progress
 - Trying to make it more “modern”
 - Better Structure
 - Make sure it actually tells people what we do!
- We need help!
 - We would like some Visual/Audio testimonials to liven up the page
 - If you want to help please contact me

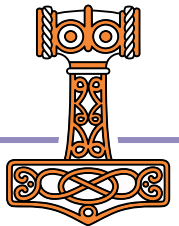

Consulting

- We will expand consulting in the US!
- Several customers are interested in hiring!
- If you know someone we would like to know!

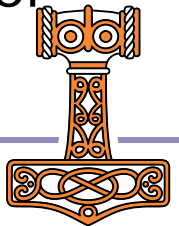

The Fund

- At Dyalog we work towards securing the future of APL!
- Some years ago John Estep asked us:
I am bringing my estate in order and I was wondering if there is somewhere I can leave some money for the future of APL?
- The Dyalog Board has now approved the creation of a charitable Fund with the purpose of promoting APL for the benefit of Education and Science!
- Website will be online as soon as the paperwork clear the legal hoops

The Fund

- We believe there are like minded individuals out there who has worked with, enjoyed and prospered from APL – and who also want to “Pay it forward!”
- We are looking for founding members!
- While we wait:
 - Jesus Galan Lopez, PhD in Engineering, is currently mapping student requirements for analytical tools with the intent of introducing APL where there is a need, to students at UGent University in Belgium.
 - The project is sponsored by Dyalog and his presentation of the project at Dyalog’22 will be online soon

This was a lot about what you can do for us.

Now in return I will hand you over to Morten who will tell you about what we plan to do for you
